

# SafeTapp

Secure Training Record  
Storage and Offline Forms

Access a wide range of safety tools from your phone including, all of your training certificates, safety forms, company policies and procedures, and more!

Download and complete digital safety forms on a mobile device

Scan custom QR codes to verify training records

Store course certificates on the app for easy review

# Support your most important health & safety objectives with one convenient EHS app

Whether you're an employee, contractor, employer, or prime contractor, this app has something for you. As an employee or contractor, you can download and store training certificates, complete audits, and inspections, and even sign off on company policies and procedures, all from your tablet or smartphone. As an employer or prime contractor, you can scan certificates and search and verify training records in real-time before allowing anyone on your work site.

## App Features

SafeTapp boasts a variety of features, including:

Training Record Storage

Offline Forms

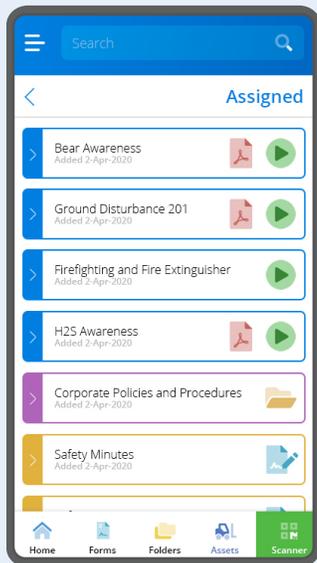

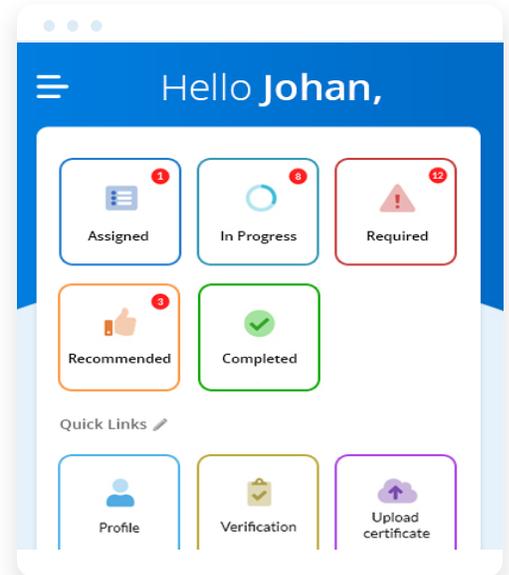

Digital Folders

Offline Access

QR Code Technology

## Offline Forms

Thanks to SafeTapp, forms have become easier than ever to access, anytime, anywhere, even offline. Designed for use in the field, you can easily complete a wide array of custom forms, including incident investigations, hazard assessments, and competency validations, plus access real-time incident reporting, alerts, and notifications. It's also never been easier to capture photos, videos, and more—even when offline.

## ID Badges

SafeTapp can also be used to:

✓ Scan BIStrainer generated ID badges

✓ Access the resulting list of training records

## No QR code to scan? No problem! SafeTapp also allows for manual verification.

By entering a worker's certificate number and last name into SafeTapp, you can access details of their training, including the course title, expiry date, ID verification status, and more. By inputting a user ID, you can pull up a complete history of that worker's training, then click on a record to receive more information and view copies of their certificates.
