

Network Partner Shared Client Program

We do all the work,
you get the reward!

Increase Your Passive Income

If you introduce the BIS Safety Software team to a sales lead who becomes a client, the commission from that client will be shared with you!

You are always welcome to join sales meetings to lend a hand and maintain your relationships, or simply turn over the lead to the BIS team. Either way, you still earn ongoing commissions!

“You will be paid monthly for as long as they’re a client!”

We want to partner with you and bring value to your health and safety industry connections. We also want to make it worth your while and pay you for making introductions that become clients.
